CONTENTS

Tectonophysics Volume 133

Research Papers

The thermal nature of the Canadian Appalachian crust
Drury, M.J., Jessop, A.M. (Ottawa, Ont., Canada) and Lewis, T.J. (Sidney, B.C., Canada) 1

Extension, subsidence and thermal evolution of the Los Angeles Basin—a two-dimensional model
Sawyer, D.S. (Austin, Tex., U.S.A.), Hsui, A.T. (Urbana, Ill., U.S.A.) and Toksöz, M.N. (Cambridge, Mass., U.S.A.) . 15

Problems in the extrapolation of laboratory rheological data
Paterson, M.S. (Canberra, A.C.T., Australia) 33

An interpretation of magnetic signatures of subduction zones detected by MAGSAT
Arkani-Hamad, J. (Toronto, Ont., Canada) and Strangway, D.W. (Vancouver, B.C., Canada) 45

Accretionary volcanic processes and the crustal structure of Iceland
Gibson, I.L. (Waterloo, Ont., Canada) and Gibbs, A.D. (Glasgow, Great Britain) 57

On the relation between initial conditions and late stages of Rayleigh–Taylor instabilities
Schmeling, H. (Uppsala, Sweden) 65

Neogene displacements in the Solomon Islands arc
Ridgway, J. (Nottingham, U.K.) 81

Seismo-tectonics of the Andaman–Nicobar Islands
Banghar, A.R. (Bombay, India) 95

Earthquakes and deformational structures (seismites) in Holocene sediments from the Himalayan–Andaman Arc, India
Anand, A. and Jain, A.K. (Roorkee, India) 105

Relationship between magnetic susceptibility and strain in laboratory experiments
Borradaile, G. and Alford, C. (Thunder Bay, Ont., Canada) 121

The development of discrete shear-zones in a granite: stress, strain and changes in deformation mechanism
Vauchez, A. (Marseille, France) 137

Letter Section

Influence of stress and temperature regimes on graben subsidence—a note
Barroll, M.W. and Reiter, M. (Socorro, N.M., U.S.A.) 157

Special issue on Deep Internal Processes and Continental Rifting (edited by C. Froidevaux and Tan Tjong Kie)

Preface IV

Formation and evolution of the Yilan–Yitong graben
Tian, Z. and Du, Y. (Beijing, P.R. of China) 165

Spectral analysis of topography and gravity in the Basin and Range Province
Ricard, Y., Froidevaux, C. (Orsay, France) and Simpson, R. (Menlo Park, Calif., U.S.A.) 175

Basin development, examples from the United Kingdom and comments on hydrocarbon prospectivity
Gibbs, A.D. (Glasgow, Great Britain) 189

Lithospheric structures and possible processes in Phanerozoic eastern Australia from deep seismic investigations
Finlayson, D.M. and Leven, J.H. (Canberra City, A.C.T., Australia) 199

The Cenozoic tectonic evolution of the Great North China: two types of rifting and crustal necking in the Great North China and their tectonic implications
Ye, H., Zhang, B. and Mao, F. (Beijing, P.R. of China) 217

The evolution of the Suez rift: a combination of stretching and secondary convection
Moretti, I. and Chénet, P.Y. (Rueil Malmaison, France) 229

Some characteristics of the seismicity and the stress field in the Panxi rift zone
Zheng, J.Z., Xu, W.Y. Liu, J. and Zhou, Y. (Beijing, P.R. of China) 235

Cenozoic extensional tectonics in China
Ma, X. and Wu, D. (Beijing, P.R. of China) 243

The Fenwei rift and its recent periodic activity
Wang, J.M. (P.R. of China) 257

The Cenozoic rift system of the North China Plain and the deep internal process
Liu, G. (Beijing, P.R. of China) 277
Geodynamics and tectonic evolution of the Panxi rift
Tan, T.K. (Chen, Z.J.), (Beijing, P.R. of China) 287
Pre-oceanic rifting in the Alps
Lemoine, M. (Villefranche sur Mer, France) and Trümpy, R. (Zurich, Switzerland) 305
Rifts and grabens
Artyushkov, E.V. (Moscow, U.S.S.R.) 321

Contents Volume 133 333
